## The precious metalworks specialist

**BRASS SOLUTIONS** has been at the forefront of metal craftsmanship since 1992, driven by a passion for architecture and design. As specialists in precious metals—brass, copper, and stainless steel—we focus on fenestration, fixtures and furniture manufacturing, delivering tailored solutions through a comprehensive project approach. Our process seamlessly integrates design, development, and production, utilizing both artisan craftsmanship and cutting-edge machinery for exceptional engineering precision.

Our talented team of 50 includes an in-house technical engineering and design division, ensuring that every project meets the highest standards of finishes. Within our 1800m<sup>2</sup> factory, a dedicated research and development lab continuously explores new ideas and enhances our product identity, fostering creativity and experimentation. We have a processing capacity of 100m<sup>2</sup> per day, which can be doubled depending on the scale of the project, allowing us to adapt to the unique needs of each client efficiently.

Working hand in hand with prominent architects and design professionals, we elevate the hospitality sector and private residences with our discerning approach to luxury, crafting seamless metal works that enhance every environment. At **BRASS SOLUTIONS**, we don't merely construct; we create lasting legacies in precious metals.

## Our finishes

We offer a wide selection of finishes, from Middle Bronze Brass to Canon Riffle, and can accommodate clients' visions by developing custom finishes for specific projects. Each finish is complemented by tailored treatment options, such as Bee Wax, Bright Varnish, Matte Varnish or Nano Protection.

## Our Products

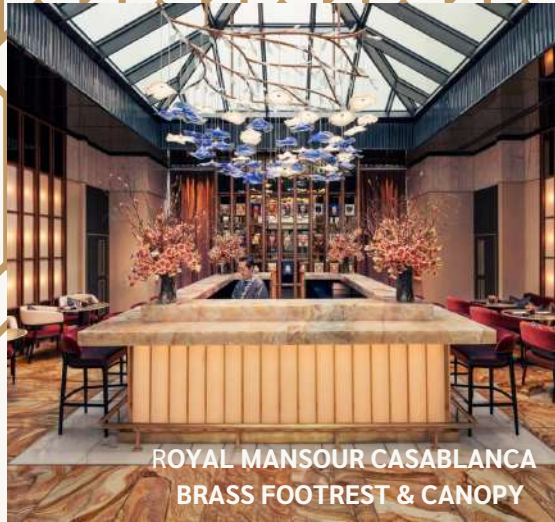

BRASS SOLUTIONS takes a unique approach by offering a fully customised experience instead of a conventional product catalog. Our core strength lies within our bespoke process for each project. We specialise in luxury fenestration, fixtures, and furniture, manufacturing a wide range of products, including windows, doors, and bar counters, tailored to meet the unique needs of our clients.

### Windows & Doors

Our custom brass fenestration products are available in a variety of designs, configurations, finishes, and performance specifications to suit the client's unique needs. Our extensive range caters to every imaginable opening, including Pivot, Bi-fold, Lift/Slide, Multi-Slide, and Standard Hinged Doors.

### Fixtures & Furniture

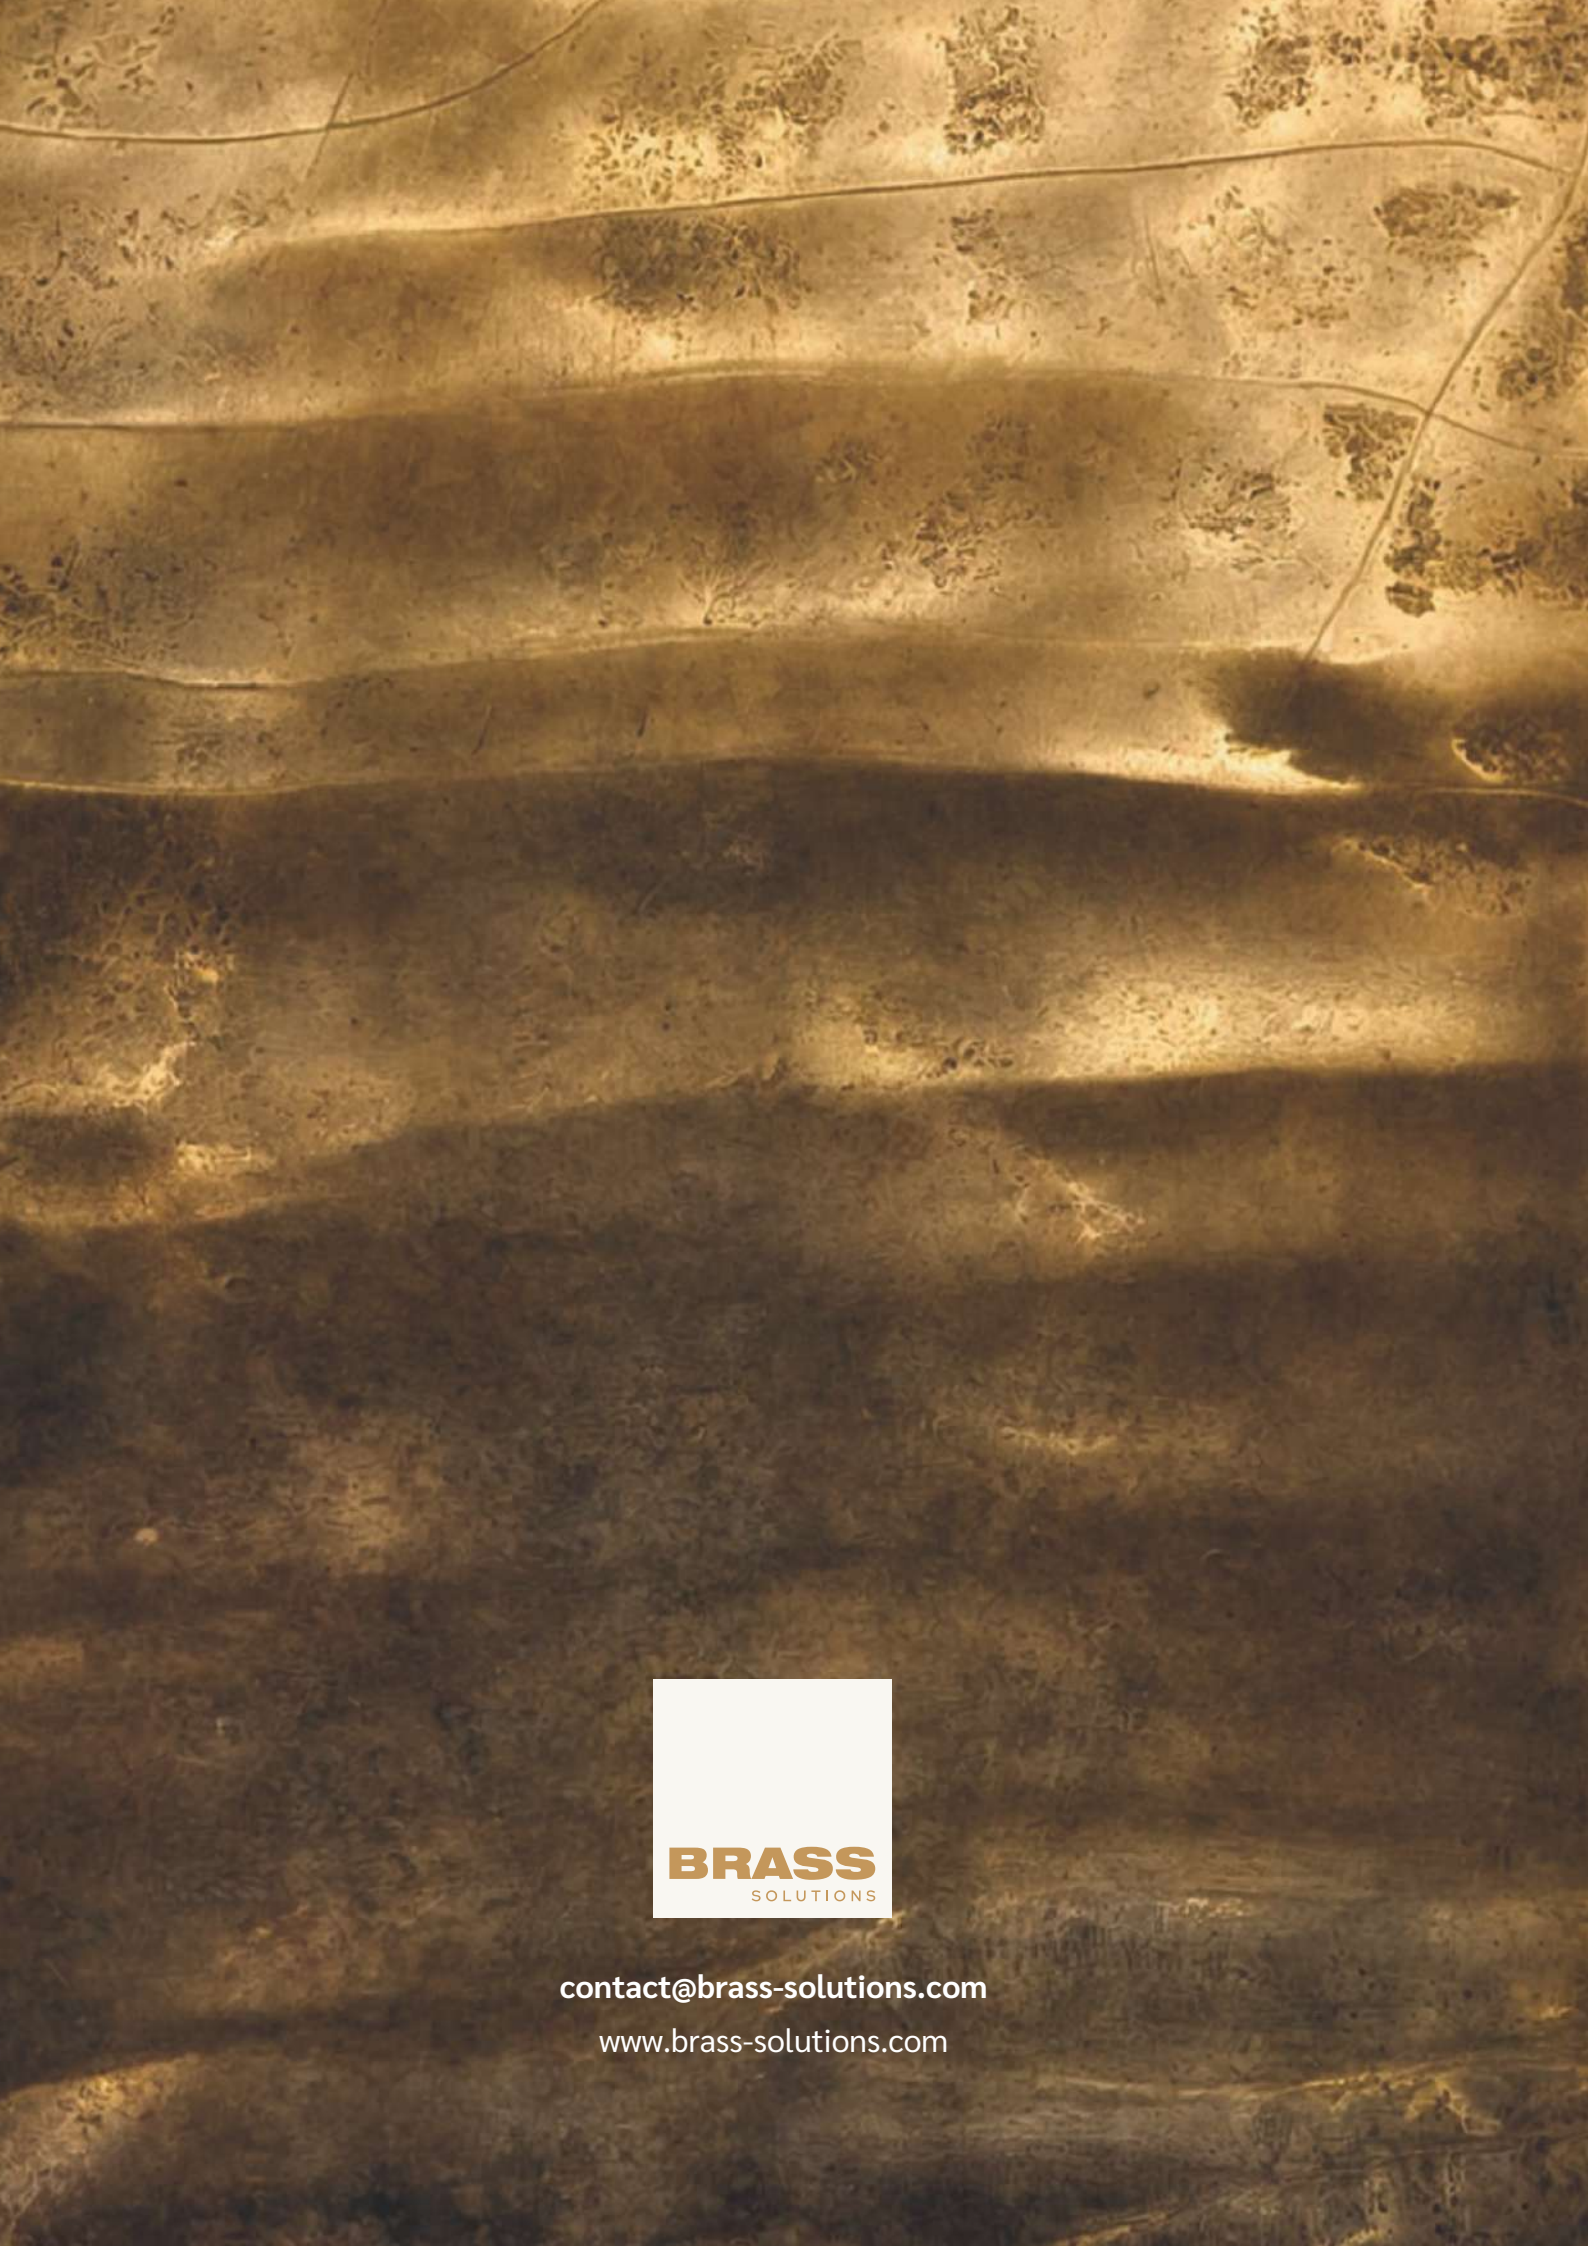

Our know-how encompasses the development and crafting of unique design pieces. This breadth of skill allows us to offer an extensive range of turnkey products for the hospitality sector, from elegant brass lobby counters to bespoke stainless steel chairs, ensuring tailored solutions that meet the highest standards of quality and design.

## Our Factory

The entire production process is marked by minimal automation, relying on the skills of our craftsmen. With a specialisation in customising products and projects, they are dedicated to bringing our clients' dreams to life.
